Certain-teed Is Easy to Lay

Certain-teed Roofing can be easily laid by anyone who will follow the simple instructions enclosed in every roll.

You don't have to hire experienced roofers. You don't even have to worry about finding skilled workmen. They are mighty hard to get these days.

This fact means two things to you. You save the difference between the wages of skilled and unskilled men. You get your roof laid quickly by men who can be easily obtained.

But Certain-teed Roofing provides far more than a roof that is easily laid. It is guaranteed for five, ten or fifteen years, according to weight. It has never been known to wear out on the roof. It is weather-proof, fire-retarding and spark-proof.

Though there is a shortage of many kinds of roofing, you can always get Certain-teed Smooth-Surfaced Roofing.

See your dealer at once. He either has Certain-teed or can get it quickly from a nearby Certain-teed warehouse.

Children Cry for Fletcher's

CASTORIA

The Kind You Have Always Bought, and which has been in use for over thirty years, has borne the signature of Chas. H. Fletcher and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels aids the assimilation of Food; giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

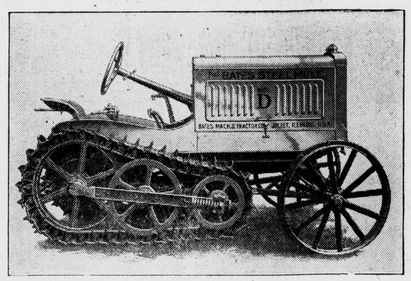
Every Inch of the Bates Steel Mule is Thoroughbred



The United States government by means of the Department of Agriculture, has been looking into the tractor question, and its bulletins clearly proves that the satisfied tractor owner—men who say that the tractor has paid—are men who own the BETTER CLASS of tractors. The successful man has learned years ago that he can't get something for nothing. No one can. The reason the BATES STEEL MULE costs more is that it is worth more. Skilled factory procedure, quantity production and the most modern Machinery enables us to save money at every turn, yet the BATES STEEL MULE cost slightly more in the beginning to build but considerably less in the long run to own. It's just another case where a seemingly higher priced article is far cheapest to own when you come to actually USE it.

The Bates thoroughbred quality comes not from mere claims, but from what's put into it. Every part that goes to make up the BATES STEEL Mule is put there by long field experience. There isn't a part that isn't time-tried and tested. There isn't a part that experience has'nt dictated the shape and size of; and in it all there isn't one superfluous part, nor one part that isn't capable of standing up under twice the strain it gets in actual use. These are things experience and practice have distracted. The BATES comes to you as a fulfillment of your desire for a tractor that will endure. Price is what we pay for a thing. Value is what we get out of it. Consider your tractor from what you will get out of it, consider how many working days you have when the ground is wet, consider the operations where you can not afford to pack your seed bed, and consider how constantly and economically they must be performed even in rush times, you will then see why the BATES STEEL MULE is the biggest value offerd in any tractor on the American market today.
